Examples of Backgrounds Available for Selection for Orbit

Summary

There are a number of Background types that can be chosen, when staff and borrowers log in, to personalise their Orbit screen. By default the background of Orbit is selected.

This guide lists a screen example of a selection of Background that are available. It will give you an idea of what Orbit will look like when you chose any of them. Backgrounds can be changed whenever you want as long as you are logged in. Backgrounds are different to the options that can be selected as a theme. A separate guide provides some examples of Themes.

Backgrounds Available for Selection

Once you have logged in, click on the My Library button then click on the Settings tab.

Click on the down arrow at the end of the Background field and the list of backgrounds that you can choose from will display. There may be some custom backgrounds that are included in the list that displays. Changing the Background option does not change the theme of the tabs, buttons and Welcome banner. The colour scheme for them is changed when a new theme is selected from the Theme field’s list.
