How to Change the Look and Feel of the My Library Screen in Orbit

Summary

Once you have logged in to Orbit you can create your own look and feel for your Library Home screen by choosing one of the background, theme and Me icons from lists in the Settings tab in My Library.

This guide will provide the steps required to change the look and feel of the My Library screen in Orbit.

Overview of the My Library Settings Tab

You can choose a background, a theme and a “Me” avatar for your Library screen.

1. Click on the My Library button.

2. Click on the Settings tab.

3. The tab will contain a large number of avatars in the Me section, as well as a Background and a Theme field.
Change the Background

You can make the background of your screen different to the library’s main Orbit screen. If you don’t like the first background you choose you can change it to a different one. To change background:

1. Click on the down facing arrow at the end of the Background field.

2. You will see a list of different backgrounds from which you can choose.

3. Click on the background you think you would like, for example, Sneakers.
4. Sneakers will now be in the Background field and the background of your page will have changed straight away.

Note: There may be some backgrounds in the example list that are not included in the list you see.
5. If you don’t like how it looks, click on the down facing arrow at the end of the Background field and click on another one.

6. Once you have chosen a background you like click the Save button.

You can change the background as many times as you like.

Change the Theme of Your Screen

The colours used for the tabs and buttons in your library page can be changed by choosing what you would like from the Theme field. To change the theme of your tabs:

1. Click on the down facing arrow at the end of the Theme field.

2. A list of Themes will display. The one used at the moment is highlighted in blue.
3. Click on the theme you think you might like, for example, **excite-bike**.
4. Excite-bike will now be in the Theme field and the colour of the tabs and buttons will change straight away.
5. Once you have decided on the theme you like click the **Save** button.

You can change the theme as many times as you like, whenever you like.

**Choose Your “Me” Icon**

When you first log in via the Search interface the *My Library* button a default icon is used.

The *My Library* button icon can be changed by selecting a different one from in the *Me* section of the Settings tab. There may be some different avatars included if the library staff have added avatars created by themselves or library borrowers. To change your My Library button:

1. In the *Me* section, click on the **Me** icon you would like on your *My Library* button.
2. Your *My Library* button will now have that *Me* icon.

3. If you like that icon that is now on your My Library button click the **Save** button.
4. If you want to choose a different icon, just click on the one you want in the Me section and if you like how that looks, click the Save button.

You can change the look of your My Library button whenever you want.
