Overview

This document will show you how to embed a YouTube video into a Catalogue Record.

YouTube Embed Code

- Locate your YouTube video.
- Click Share > Embed.
  - Choose ‘Use old embed code’
  - Untick the other boxes
- Copy the code.
Add to Resource Record

- Locate your Record in Catalogue > Resources.
- Edit and put your cursor in the Notes field.
- Click HTML from toolbar and paste your code into the popup window.

- From the HTML Source Editor you need to remove.
  - `<object` (from the beginning and include the space)
  - `</object>` (from the end)
- Click Update.
